

World-leading Innovative Graduate Study of Advanced Economics
(Takuetsu Program)

Application guideline for UTIPE

Graduate School of Economics

1. Overview

This program aims to promote doctoral studies of outstanding students in the field of advanced economics, and to train doctoral holders active in the world. In the first half of the program, we will offer an integrated curriculum of undergraduate and master's curriculum for outstanding students of the Faculty of Economics. The second half of the program is integrated with master's and doctoral studies and interacts with researchers from the world's leading advanced economics through the workshops in each field. This program also offers non-refundable financial support.

2. Purpose

From the viewpoint of economics, management and close range, responding to the demands of a modern society changing dynamically, through theoretical and empirical research, we encourage students to challenge new value creation and foster them who can feedback policy evaluation and recommendations based on new knowledge to society.

3. Number admitted

A few per year

4. Completion requirements

- To obtain 4 credits or more from the following courses and;
 - Microeconomics Workshop I
 - Microeconomics Workshop II
 - Macroeconomics Workshop I
